ABSWE

Alabama State Board of Social Work Examiners 334/242-5860 or 1-888-879-3672

View from the Chair by Paula S. Clark, LBSW

Fall is finally here and the weather in my part of the State is fabulous – hope it's the same for you. When summer is over I tend towards more serious thoughts, so I want to discuss a very important and serious responsibility we all share. As Licensed Social Workers we are obligated on occasion to perform an onerous task. We MUST report violations of the Code of Ethics as soon as we become aware of them.

This does not necessarily mean that you personally must file the official complaint to the Board of Social Work Examiners, but you do have to pursue violations through your agency or organization's chain of command. Obviously if you are in private practice, you are required to act on violations yourself. This also does not mean that filing a complaint has to be the first action you would take under either circumstance. The Code of Ethics does give us one option to try first. Under 850-X-9-.01 of the Administrative Code, Standards of Professional Conduct & Ethics, #16, "The social worker who has direct knowledge of a social work colleague's impairment due to personal problems, psychosocial distress, substance abuse, or mental health difficulties should consult with that colleague and assist the colleague in taking remedial action."

If the situation fits, this is certainly the appropriate action with which to begin. However, it is sometimes the case that taking such action would not be appropriate, or if taken might be unsuccessful. It then becomes essential that you pursue the matter either with your supervisor (if you are employed by an agency or company) or directly to the Board (if you are practicing privately). Of course, the PIP may consult with another professional about this action as long as confidentiality is not breached. We are encouraged by our professional ethics to consult with others who may have more experience any time we need assistance with a professional dilemma.

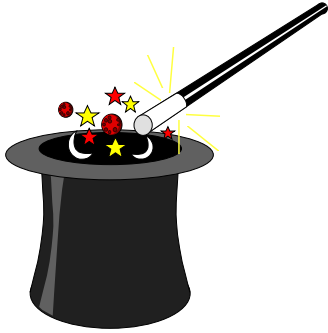

Many times an agency will pursue disciplinary action against a Licensed Social Worker and consider the matter finished. Or a PIP may "look the other way" because they don't know the procedure for filing a complaint, or they don't want to get "involved." According to our Administrative Code, the same section cited above: # 17, "The social worker who believes that a social work colleague is incompetent and has not taken adequate steps to address the incompetence should take action through appropriate channels established by employers, agencies, NASW, and the Alabama State Board of Social Work Examiners."

Please note how specific the instructions are and that reporting to the Board is included even if other avenues are also pursued. If your supervisor or director is not a Licensed Social Worker, it is your responsibility to educate them to the appropriate action or refer them to the Board so that we can instruct them in the mechanics of filing a complaint. If you are not familiar with that process, please see our web page (www.socialwork.alabama.gov) and click on "Complaints."

(Continued on page 2)

On-Line Renewals

I hope by now everyone has had the opportunity to visit our web page at www.socialwork.alabama.gov. If you've been to the web page recently you may have noticed that we are now offering on-line renewals for you social work licensure.

*"The Board does not charge
the convenience fee."*

This process became available July 18, 2006 and since that time 68 people have taken advantage of the opportunity and renewed on-line. After you complete the on-line renewal you are still required to submit the CE forms by mail as proof of attendance along with a copy of your receipt showing that payment was received. There is a \$3.50 charge for the on-line renewal service and payment must be made by a credit card. The Board does not charge the "convenience fee" and does not receive any part of the additional fee. The fee is collected by a company named Alabama Interactive which set up and maintains the payment processing, and the money is used to pay them for the service. Renewing on-line can save you time because you are not required to obtain a money order or cashiers check, and because you don't have to get the renewal form notarized since there is a legal statement associated with the on-line renewal.

All paper renewals (those mailed to our office) must still be notarized and the payment can only be by money order, cashiers or business check. That policy has not changed.

CE Programs Hours

Please remember that we can not break apart or separate your CE hours earned in a single program. These hours were earned for the entire program as a whole and they must remain intact or in unison.

We understand this can be a hardship on some, especially those that have to take leave to attend programs and pay for their own CE, and we regret the inconvenience. However, the task of keeping track of everyone's continuing education is a chore that we are facing with a staff that is relatively small in proportion to the number of licensees we regulate.

View from the Chair continued from page 1

Paula S. Clark, LBSW
Board Chair

It is important to note that the complainant does not have to prove any allegations made. Looking into the merits of the complaint and any action required thereafter is the responsibility of the Board

In a perfect world there would never be a reason to make a complaint against one of your colleagues, but we, of all people, certainly know this is not a perfect world. The sad fact is that Social Workers are not immune from unethical practice. If these practices are unknown to the Board we cannot take appropriate action against people who would prey on the most vulnerable of our population. When a complaint is verified or admitted by the Licensee we not only pursue sanctions, but also report the behavior (and whatever sanction was imposed) to the Disciplinary Action Reporting System maintained by the Assn. of Social Work Boards so that the Licensee cannot simply move to another state and continue to practice.

The charge of the Social Work Board is to protect the public. We can't do that if you don't help us by notifying us when you believe there has been a violation. It is not just our responsibility, it is your responsibility too.

With regards,
Paula S. Clark, LBSW
Chair

Farewell from District 1 Representative

"Gratitude unlocks the fullness of life. It turns what we have into enough, and more. It turns denial into acceptance, chaos into order, confusion to clarity. It can turn a meal into a feast, a house into a home, a stranger into a friend. Gratitude makes sense of the past, brings peace to today, and creates a vision for tomorrow." ~Melody Beattle~

With much gratitude I wish to thank each of my fellow licensees for your support during my terms of service on the Board. I hope that those of you with the time, energy and expertise will strongly consider launching a campaign to represent our great district. The Board's primary responsibilities are, to protect the public from incompetent, unethical and unlawful social work practice, to enforce qualification standards for all levels of licensure and certification, and to delineate unlawful conduct through disciplinary procedures against practitioners who violate applicable laws or rules.

I am also grateful for the opportunity to work with the dedicated group of social workers that comprise the Board, as well as the professional Board staff. Over the course of my term collectively we have developed the language necessary to propose code change legislation, markedly improved the investigative process, developed and made available a "user friendly" consumer brochure, and implemented an "on-line" renewal service for licensees.

My supervisor and administrators have been a constant aid and support. They have been stalwart proponents and made my years of service possible, for that I am very grateful.

Filled with Gratitude,
Marsha Hobbs, LCSW, PIP

Marsha Hobbs, LCSW, PIP
Mobile, AL

From the Board Office: by Brenda Holden

Recently information was posted to the Bulletin Board section of our web site regarding two openings on the Board of Social Work Examiners and requesting nominations for the positions. There was a map showing the districts involved and information on how to nominate someone. The result was disheartening. For the two districts combined only three names were submitted and one of the three did not live within the correct district so they were disqualified. While it is true that serving on the Board does require a considerable commitment of time and effort, please remember that this is your board; it's for you the social worker, and it will only remain effective as long as there are dedicated Social Workers willing to make the commitment to serve on it. Although the primary duty of the Board is to protect the public, it also serves to represent all licensed social workers within the State of Alabama.

In case you haven't seen it lately other things you can find on the Bulletin Board section of our web site are employment opportunities for those searching for jobs, CE Conferences for those looking for continuing education and special interest topics like information about openings on the Board! OK. I'll stop fussing about that, but remember Social Work is about getting involved helping out and finding resources to make the world a better place for everyone. We all need to move forward utilizing our skills and talents to make life better for those around us, and yes, even for ourselves. I sincerely hope that the next time there is an opportunity to make nominations for openings on the Board that more people will be willing to lend a hand and get involved. While you're thinking about it, why not go ahead and mark your calendars for September 2007 when we will be accepting nominations for the Board position from Districts 2 and 5.

On another note, I would also like for you to let me know what the Board or the office staff can do to improve the services that we provide for you. One example of this type of request is the change in the format of this newsletter. Since we no longer print and mail out the newsletter I was recently asked if we could take out the columns and post it on the web site like a letter so that it would be easier to read. This is just one small example, but nothing is too small to ask. We might not always be able to accommodate your requests, but we will try if it is possible. Please let us know how we can serve you better.

*"Please let us know how
we can serve you
better"*

Meet Karen Hester: Board Staff

"members of the Board are a pleasure to work with and know."

My name is Karen Hester. I joined the Board staff in April of this year and am excited and proud to be a part of this hard-working organization. Ms. Brenda Holden, our Executive Director, and the members of the Board are a pleasure to work with and know. I feel I'm already acquainted with many of you from our telephone conversations concerning exam and licensing requirements.

My background in state service consists of 17 years in administrative support duties. I am a full-time employee, wife and mother. In my free time, my hobby of choice has always been photography. Life is full of great moments that deserve to be captured by a wonderful photograph that tells its own story. Have a great next quarter!

Task Force Developed by Janet Rawls, LCSW

Board Members join Task Force to address issues related to the social work licensing exam and matters affecting the social work profession.

The ABSWE held its July meeting on the campus of Montevallo University. During this meeting, the board was introduced to members of a newly formed task force comprised of educators, social work professionals and social work employers. Among the issues being discussed by the task force are recent trends in pass/fail rates of the social work licensing exam and the social work manpower shortage across Alabama.

On September 29, 2006, Board Members Janet Rawls and Diana McCampbell, along with Board Executive Director Brenda Holden, attended a task force meeting held in Montgomery, Alabama. Also attending this meeting were representatives from Alabama State, Jacksonville State, Troy University, University of Alabama, Auburn University, University of South Alabama and the University of North Alabama. Others in attendance were the Alabama Department of Public Health and the Alabama Department of Human Resources. During this meeting members of the task force discussed various factors that may be attributed to the recent decline in pass rates among Alabama test takers. Hopefully the Task Force will gather enough information and suggestions to address the issues with the Association of Social Work Boards (the test writers) and CSWE (the education body for social work) to find a solution to the problems facing our state and employers. More information should be coming in future issues – stay tuned.

Please remember address changes must be in writing. They may be mailed, faxed or emailed to the board's office. Thanks!

"task force discussed various factors that may be attributed to the recent decline in pass rates."
